Frank Christensen, General President
International Union of Elevator Constructors
7154 Columbia Gateway Drive
Columbia, MD 21046

Dear Sir & Brother:

On behalf of the members and honorary members of Local 31 and especially the ones directly affected by the unprecedented flooding in the Houston area August 26th, 27th, 28th and 29th from Hurricane Harvey, we would like to express our sincere appreciation for the International's generous donation.

We have members and retirees that were hit with just wet carpet to those who had water up to their roofs. Some simply have to replace flooring while others must completely rebuild. While some were lucky to have flood insurance, others never thought they would need it because they were never considered in a flood zone.

With your generosity they will be able to do necessary repairs, replace necessities such as clothing, furniture, appliances, household items, even children's toys.

Thank you for showing how this union is built on brothers and sisters being there for each other in very difficult times.

Fraternally,

A handwritten signature in black ink, appearing to read "John C. Bell".
