

Lock Out Tag Out

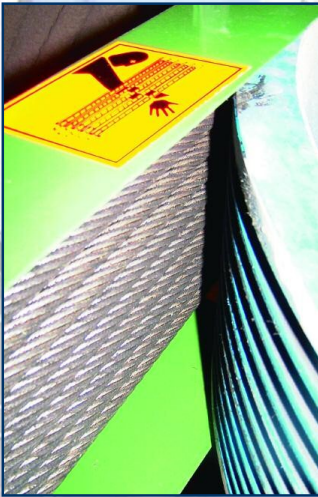

Got Time? Take Time!

DANGEROUS SAFETY VIOLATION - NO GUARD OVER THE BELTS.

MULTIPLE MOVING PARTS - BE AWARE OF YOUR ENVIRONMENT.

SEVERE PINCH POINT - WORK ALERT, USING EVERY PRECAUTION TO AVOID ACCIDENTS AND INJURIES.

This hand decided to clean oil from a drip pan under a Hydraulic Machine (Elevator Pump unit).
This hand did not Lock Out / Tag Out the elevator.
This hand went into the pan through the belts to dry a small amount of oil. The motor started to run.
This hand had an owner who almost bled to death.
This hand was out of work for many months.
Thanks to many doctors this hand still works.
This hand now uses the Lock Out / Tag Out Program.

WEIGH THE COST OF WORKING UNSAFE - YOUR LOVED ONES ARE COUNTING ON YOU.

Will your hand be that lucky?

NOTE:

When safety hazards are encountered that can not be easily avoided they must be IMMEDIATELY reported to your Supervisor, and to your Business Representative if necessary.

“We came to this trade to have a better life not a shorter one.”
